(2) (a) “Nazul” includes *inter alia* any immovable property belonging to Government within the limits of a municipality and not definitely assigned to the charge of a department other than the Revenue Department:

Provided that—

(i) the definition will not apply to lands in new colony towns, that is to say lands in any place which had not been constituted a municipality before the colony was started;

(ii) nor will it apply to lands comprised in any extension (made subsequent to a colony being started) of the limits of existing municipalities and in colony tracts;

(iii) or will it apply to any unalienated lands in towns of the older colonies, unless such lands were situated within the limits of a municipality prior to the commencement of colonization operations.

(2) An application under rule (1) shall be accompanied by a plan of the properties to be alienated together with a statement in the form appended to these rules.

(3) The Deputy Commissioner shall record an order on the application—

(i) Sanctioning it (subject to such conditions, if any, as he thinks fit), or

(ii) refusing to sanction it, provided that no sale by auction shall be valid until it has been confirmed by the Deputy Commissioner.

(4) When the Deputy Commissioner has accorded sanction to a sale by auction, the statement aforesaid shall in due course be resubmitted to him within the details regarding the auction which are shown in the form printed on the reverse of the statement and the Deputy Commissioner shall thereon either confirm the sale or refuse to confirm it. The following principles should be observed by local officers while making recommendations regarding the action of Government in cases of encroachments on nazul land vested in local bodies. These instructions distinguish between encroachments of more than 20 years and less than 30 years, respectively since the legal position of the Government is different in the two cases:—

(a) In the case of encroachments which date back more than 29 years and less than 30 years Government has liberty of action.—

(i) In case where the land encroached upon should clearly be restored to its original purposes, and Government can make no other use of it, Government should lodge a civil suit; provided that the local body agrees in writing to pay to Government the cost of litigation whether the suit be successful or not. If the local body declines to give an undertaking to this effect no action need be taken.

(ii) In case, where it is not necessary to restore the land to its original use, the action of Government will be determined by expediency and its own interests. If a compromise cannot be reached with the encroacher either for purchase or lease of the land encroached upon a civil suit should be lodged, provided that a suit is likely to be successful and that the value of the land is sufficient to compensate for the trouble and odium involved. The costs of the suit be paid by Government and the sale proceeds or income of the land will be credited to Government.

(b) In the case of encroachment which date back less than 30 years, Government should take direct action only after the reasonable opportunity has been given to the local body to take action. When an encroachment is discovered, the local body should be given full information in regard to it, and should be asked to state within a specified time which ordinarily should not exceed six months, firstly whether it considers it necessary that the land encroached upon should be restored to the former use so that it may continue to vest in the local body, and secondly if it so considers, whether it is prepared to lodge a civil suit against the encroacher within a specified time which should ordinarily not exceed 12 months. At the same time the local body should be informed that if it does not desire the restoration of the property to its former use, or if it is not prepared to lodge a civil suit for the purpose within the time specified, Government, as owner of the land with regard itself is free to take such action as it may consider proper.

(c) If the reply of the local body is to the effect that it does not consider it necessary to restore the land encroached upon to its former use, the action of Government will be determined by the considerations mentioned in sub-para (a)(ii) of this paragraph. If a civil suit is lodged, State Government will meet the cost of litigation, and will take the benefit consequent on a successful issue.

(d) If the local body refuses or fails to lodge a civil suit within the period prescribed, then the action of Government will be determined by the same considerations as are indicated above, but it will not, except in special cases, be prepared to take action where the land encroached upon should be restored to its original purpose.

7. *Municipal Rest House.*—Every municipality in charge of a Rest House shall be bound to frame rules with regard to its occupation and rent etc.

to be realised therefor. These rules shall be subject to the approval of the State Government.

**8. State Government properties for management.**—(1) Every municipality to which any property of State Government, has been transferred for management shall keep a proforma account of the income derived from such property including any grant received from State Government in respect thereof and of the expenditure thereon and shall be responsible for the annual repairs required for such property and for special repairs to the amount of the balance, if any, of income over expenditure since the property was transferred as shown in the proforma account.

(2) No municipality to whom any property of Government has been transferred for management shall cause by repairs or alterations to such property to be carried out in style differing from that of the original work without the consent of the State Government in the Public Works Department.

(3) No municipality in whom any land of Government vests or to whom any land of Government has been transferred for management, shall cause or suffer any buildings of a permanent nature to be constructed on such land or shall cause or suffer such land to be diverted permanently from its existing use without the consent of the State Government.

*Note.*—The planting of gardens on Government lands on which such gardens did not exist when the lands were made over to local body, amounts to permanent diversion from the existing use, and therefore, the consent of State Government to such diversion is necessary.

**9. Rules to be general.**—These rules shall be general for all municipalities.

**10. Repeal and saving.**—Any rules corresponding to these rules in force immediately before the commencement of these rules and applicable to the municipalities to whom these rules apply are hereby repealed:

Provided that an order made or action taken under the rules so repealed shall be deemed to have been made or taken under the corresponding provisions of these rules.

By order,  
C. M. CHATURVEDI,  
Secretary.
